STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

30 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

COAST NEWS.

Los Angeles county experienced a light shock of earthquake Saturday.

A theater to cost $50,000 is to be built in Victoria, B. C., by subscription.

A national bank with a capital of $50,000 is to be established at Colfax, W. T.

A mine, rich in both gold and silver, has been discovered in the dry bed of the San Jacinto river, Cal.

Coyotes are reported to be so tame at Mineral Park, A. T., that they come into town and play with the dogs.

Some fine marble specimens have been brought into San Bernardino from the desert east of the mountains.

The farmers of San Bernardino complain of the ravages of the birds. The linnet and the butcher birds are the principal thieves.

The large store building of Thos. Johnson at Ellensburg, Or., was burned Saturday. Loss on the building and merchandise, $30,000; insurance, $15,000.

At Stanwood, W. T., one night last week, L. E. Rogers shot and fatally wounded Thomas McFarlane. The shooting was the result of a dispute over a game of cards.

A man answering the description of Clinton, the murderer of Stout at Dalles, W. T., last week, passed through Yakima City on horseback. He was heading for British Columbia.

Frank Hernandez, a young Spaniard, who, it is said, married a rich widow named Arguello of Santa Clara for her money, has absconded, taking with him some $5,000 of his wife's money.

A tree that measured 72 inches at the small or top end, and scaled over 12,000 feet, was felled near Cusick's mills, Butte county last week. Four 16-foot logs were cut from it.

The cemetery investigation at Sacramento has resulted in the committee declaring that the graves have not been dug the proper depth in 11 years, but that there was no criminal intent in disobeying the ordinance.

Saturday night a large hop-house belonging to J. Stump, in Polk county, Or., was destroyed by fire, together with a quantity of hops. The loss will probably reach $6,000; no insurance. It is believed to be the work of an incendiary.

Henry Hesse, the keeper of a shooting gallery at New Westminster, B. C., was found dead in bed last Saturday, with his throat cut from ear to ear. It was unmistakably a case of murder, and a German sailor, named Charles Judeson, who was with Hesse Friday night, is suspected of being the murderer. He cannot be found.

A Smart Man

Is one who does his work quickly and well. This is what Dr. R. V. Pierce's "Golden Medical Discovery" does as a blood-purifier and strengthener. It arouses the torpid liver, purifies the blood, and is the best remedy for consumption, which is a scrofulous disease of the lungs.

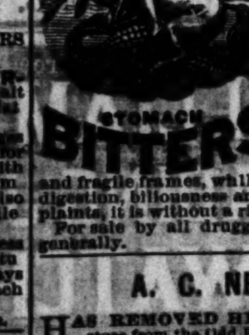

Remember, if you want health and strength of mind and muscle use Brown's Iron Bitters.

In fever and ague districts, in tropical and other regions visited by epidemics, and indeed in all localities where the conditions are unfavorable to health, this famous vegetable invigorant and alterative, Hostetter's Stomach Bitters, has been found a potent safeguard even to feeble constitutions and fragile frames, while as a cure for indigestion, billiousness and kindred complaints, it is without a rival.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

COULDN'T AFFORD IT.

Made Honest by Business Principles a Druggist Tells the Square Truth.

"Now, my friend, let's be perfectly frank and candid about this matter," the druggist said, placing both elbows on his plated show-case and looking his customer fairly in the eye. You have a lame back and want a plaster to put on it. You don't know me, and judging of human nature as it runs in business, you are afraid I'll humbug you in some way. You may think it an odd statement, but I can't afford to cheat you. Even if I did I haven't the means."

"That's curious. (Oh, my back! I'll take a chair, I guess.) Don't you keep plasters?"

"Oh, yes, one or two kinds. Once I had shelves full of them—every sort that were ever invented to gull the ignorant and make money for imitators. But I sifted 'em out one by one, and now sell

BENSON'S CAPCINE POROUS PLASTERS

Principally. They always give satisfaction, and in the end it pays me to sell them in preference to all others."

"Haven't you Allcock's?"

"Yes, but my customers and myself prefer Benson's Capcine—which are quick as electricity, safe as Government bonds and sure as the law of gravitation. The doctors order them, and what is more to the point, I have never heard a complaint from any one who has used them. You can go elsewhere—if your back will bear you out in the operation—and get another and a cheaper plaster, but—"

"Don't talk to me about the money," broke in the comfort-seeking stranger, with some heat. "What's 10 or 15 cents to getting rid of this confounded—oh, Lordy!—this pain and lameness? Let me have one of Benson's Capcine. That's the real article, is it? with the word CAPCINE cut in the body of the plaster."

"You'll be around in a week, staight and strong," added the diplomatic druggist, throwing the money in his cash drawer.

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed.—It is a fact long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

MIXED MAIL MATTERS.

The Greenville *Bulletin* waxes wroth over the mails delays. It says:

Again we feel it our duty to call attention to the gross negligence practiced by some postal officials on the Reno route, possibly at Reno, certainly at Beckworth. On Tuesday of last week the paper mail did not arrive. Now, if the Greenville mail was sent from Reno at the proper time by the postmaster there, it is possible to ferret out this troublesome official between here and Reno, and lay his case before the proper authority. It is believed by some that considerable of the trouble which occurred this Summer originated in the Reno office. We do not wish to cast an unjust imputation, but if the trouble does occur at that office, the postmaster there ought to be summarily removed. The people here have been disappointed so many times during the Summer that a petition remonstrating against the negligence lately manifested, is talked of. We have satisfactory proof of the carelessness shown by the postmaster at Beckworth, in one case at least, during last week. On Thursday night the bag containing the Quincy mail was switched off to Greenville, and that containing the Greenville mail went to Quincy. It is not our desire to treat the Beckworth postmaster unkindly; but there are times when forbearance ceases to be a virtue, and one of those times is at hand. Do your duty, Mr. Postmaster, if you do not wish a petition forwarded asking for your removal.

We have had frequent occasions to complain of the mails, and have tried hard to locate the trouble. We have been unable to find any instance, however, where the Reno office either delayed or missent the mails, and we think it is somewhere on the road.

It is now said that the extent of corruption in Indiana was to print and distribute documents and work up sentiment for Garfield among the members of the Disciple and Baptist Churches.

Beecher on the Chinese Question—Josh Billings—Drowned While Bathing.

SAN FRANCISCO, September 6.

Henry Ward Beecher, while being interviewed on the Chinese question, said: "I conclude that the treatment the Chinese have received on this coast is at once shameful and ridiculous; while all the rest of the world is adopting the most liberal and advanced course in the matter of freedom, here is a little strip of western country that is insisting upon a narrow and selfish exclusion, which policy, even in China itself, was long since abandoned.

Josh Billings arrived here on last night's overland train.

Chiracahuas and Crook.

TOMBSTONE, September 6.

Information from Fort Bowie states that Bonito, one of the Apache chiefs brought in by Crook, was on his way to the Chiracahuas in the Sierra Madres. It is supposed he goes as an envoy from Crook, to induce the Chiracahuas to come in on the reservation, according to the promise make by them to Crook.

The Chicago Stock Yards on Fire.

CHICAGO, September 5.

Late this afternoon fire was discovered in the Wabash division of the stock yards, in the cattle sheds, and but for a favorable wind the entire yards, containing millions of dollars worth of stock, would have been destroyed. As it was the firemen were only able to stay the flames after 15 sheds, covering two and a half acres, had been consumed. There were in this division between 15,000 and 18,000 head of cattle. Of this number 55 and four ponies were burned to death. It was very exciting work for a time, getting the maddened and furious animals out of harm's way as they went plunging and bellowing from side to side of the pens in which they were confined.

Yellow Fever at Pensacola.

WASHINGTON, September 6.

Commodore English last night telegraphed Lieutenant Commander Welch that it would be impossible for the marines now camped near Pensacola, to be moved north at present, but instructing him to move the camp to a point further removed from the infected district, if the quarantine authorities would permit it. He authorized him to inquire if the marines would be allowed to pass through the Gulf States, in case it is decided to move them north. There has not been any yellow fever among the marines since they went into camp. No new cases of fever were reported yesterday among the naval forces, and but one death in the hospital.

Chicago Street Railroads.

CHICAGO, Sept. 6.

Five years ago the City Council passed an ordinance imposing an annual license of $50 per car on each street car operated in the city. The matter has been pending in the courts, and the street railroad companies, having agreed to desist contesting it provided the city would compromise on the basis of $25 per car for the past five years, a compromise ordinance to that effect was passed, and yesterday and to-day the companies paid to the City Treasurer $4,000.

He Deserved Hanging.

GALVESTON, September 5.

In Gainesville yesterday the jury found C. D. Sharp guilty of rape and assessed the punishment at five years in the penitentiary. The crime was committed on the person of Emma Clark after the death of her mother, with whom Sharp had been living as husband. On divers occasions he outraged the persons of Emma, aged 15, and her sister, aged 13, who were deterred by threats from revealing their shame, until Sharp was placed in jail on another charge.

A Railroad Accident.

CINCINNATI, O., September 6.

A meagre report from Waldron Station on the Cincinnati, Indianapolis, St. Louis and Chicago Railroad, state that a freight train ran into a preceding one this morning near that station, broke through a small bridge, wrecked the engine and 12 or 15 cars. A brakeman of one of the trains and a brakeman of another road who was going home with a broken arm, were killed; the names not given. No other casualty reported.

The Denver and Rio Grande.

NEW YORK, September 6.

The Denver and Rio Grande Directors are now in session, and it is officially stated that merely routine business is being transacted. The question of Presidency will not be brought up for final settlement.

Loss of Cattle at Sea.

BOSTON, September 6.

A special from Halifax, Nova Scotia, says the steamer Lamport of Baltimore, for London, arrived there distressed, and 140 cattle shipped by Lingham & Co. of Boston were lost at sea.

FOREIGN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE.]

Have no Fears of the Result

LONDON, September 6.

A private letter from Pekin says that Li Heng Chong is really in favor of a peaceable solution of the difficulty with France, while the intriguers who surround the Court are urgent in the cry for war. Prince Kung, one of the conservative members of the Government, expresses the opinion that war will be the signal for a number of outbreaks in the Empire. The Empress is reported to be fearful for the permanence of the present dynasty, and is inclined to favor such measures as should secure peace. A *Standard's* Hong Kong special says: The people of China seem to have little fears of the result of a war with France, and believe that with their new armaments and the vastly improved discipline of their forces, the nation is better far able to contend against a foreign enemy than it was in the war of 1860. The Chinese papers urge that immediate action be taken to prevent the annexation by the French of any portion of Chinese territory, and express indignation that such an attempt should have been made at a time when China was at peace with France. A large number of Chinese employed on French vessels, have deserted, and captains find great difficulty in obtaining hands. The latest advices received from Hai Phong announce that the French Admiral will blockade the ports of Canton and Paniloi, unless the Chinese troops are withdrawn from the Tonquin frontier. It is stated that the Chinese merchants are leaving Canton because their letters are opened, and they distrust the Canton Mandarin.

A Chinese Viceroy Interviewed.

LONDON, September 5.

A correspondent at Hong Kong telegraphs an interview with Viceroy Chang Shu, who has arrived to take charge of Southern China. The Viceroy admitted that quite a number of troops had passed the frontier of Tonquin, but none have been ordered to cross the frontier, though many deserted to the black flags every day. He declared that China would not sanction the Hue treaty, and that the French must make proper arrangements with Marquis Tseng, or war will be inevitable. He thought the French seizure of Chinese customs would not seriously hurt China, as they are mostly hypothecated to English bankers. A Hong Kong dispatch says troops continue to arrive from the north, and a large amount of bullion is on the way from Canton, supposed to be for war expenses.

The London "Times'" Opinion on a France-Chinese War.

LONDON, Sept. 6.

The *Tymes* editorially says: France is steadily drifting into a war with China, and the latter is only vulnerable at those ports which occupy the quasi international portion, and any blow struck there, will be felt throughout Europe, shock England's trade in the East Indies and be most disastrous. The relations between England and France will be severely embittered thereby. The dislocation of the cotton trade would put out of employment thousands of operatives in the Lancashire factories, and the revenue to the British Crown from India would show a serious deficit. The *Tymes* points out that in the event of war the Americans, Germans, Japanese, and even the Chinese themselves, would secure more of the foreign and coasting trade in the East than the French.

They Call For Information.

PARIS, September 5.

The newspapers demand that the Government shall explain the real situation of affairs connected with the Tonquin difficulties. It is stated also that the Chamber of Deputies will probably be convoked to consider the relations between China and France, and the impression is that France has gone too far to retract. It is stated that the French man-of-war ordered from the New Hebrides Islands, has simply gone to protect the property of the Caledonia Company, which has just founded seven establishments.

Another Earthquake Predicted.

LONDON, Sept. 5.

Professor Talb, who made a statement on the subject of volcanic eruptions, and is considered authority, predicts that another earthquake will take place at Ischia on the 15th of October next.

A War of Extermination.

DURBAN, September 6.

A correspondent who has just returned from a tour through the heart of Zululand, reports that the natives are on a war of mutual extermination.

—The first train on the Mexican National railroad arrived in Saltillo, Mexico, yesterday. The whole town was out to witness the great event.

—It is reported that 1,200 Anamese were killed and 1,500 wounded by the bombardment of the French of the forts at the mouth of the Hue river.

MISCELLANEOUS.

IT LEADS ALL.

No other blood-purifying medicine is made, or has ever been prepared, which so completely meets the wants of physicians and the general public as

Ayer's Sarsaparilla.

It leads the list as a truly scientific preparation for all blood diseases. If there is a lurking taint of Scrofula about you, AYER'S SARSAPARILLA will dislodge it and expel it from your system.

SCROFULA

For constitutional or scrofulous Catarrh, AYER'S SARSAPARILLA is the true remedy. It has cured numberless cases. It will stop the nauseous catarrhal discharges, and remove the sickening odor of the breath, which are indications of scrofulous origin.

CATARRH

"Hutto, Tex., Sept. 28, 1882.

ULCEROUS SORES

"At the age of two years one of my children was terribly afflicted with ulcerous running sores on its face and neck. At the same time its eyes were swollen, much inflamed, and very sore. Physicians told us that a powerful alterative medicine must be employed. They united in recommending AYER'S SARSAPARILLA. A few doses produced a perceptible improvement, which, by an adherence to your directions, was continued to a complete and permanent cure. No evidence has since appeared of the existence of any scrofulous tendencies; and no treatment of any disorder was ever attended by more prompt or effectual results.

SORE EYES

Yours truly, B. F. JOHNSON."

It is Never too Late to Learn.

The following, from the Bodie *Free Press*, will apply as well to nearly every school district in this State: There are many young ladies and gentlemen from 16 years of age and upward who decline to attend school because, not having had early educational opportunities, they are backward and would have to take place in classes in which pupils are much smaller and younger than themselves. Some of these are eager to learn, but are unwilling to appear conspicuous in public school on account of their size and age. This is false pride. Those who allow themselves to be swayed by it do themselves serious harm, which they will regret more and more as long as they live. Pupils of the age mentioned are ripe to learn. With their matured intelligence they can acquire rapidly, and if they are industrious, pass up readily from one class to another. Study with others will be more systematic and regular, and the incentive to work will be so much greater.

She was Satisfied.

A tall, stylish-looking woman, leading a greyhound, passed the balcony of a Saratoga hotel on which two gentlemen were standing. "What a beautiful creature!" exclaimed one of them, in a voice that proved loud enough for the lady to hear. Turning very red in the face she glanced angrily at the speaker and said: "You have no right to insult me, sir." "Excuse me madam he replied, "but you flatter yourself; I was alluding to your dog."

Military Changes.

From Thomas Eagar, of the Fort Bidwell stage line, it is learned that Captain Upham's Cavalry Company, now at Fort Bidwell, will soon be moved to Walla Walla, and Captain Weil's Infantry Company will be transferred to Angel Island, and, Captain Wilhelm of the latter place, with a company of Infantry, will be ordered to Fort Bidwell.

FRANK PERKINS DEAD.

One of Reno's Well Known Business Men Passed Away.

Frank Perkins of the Palace Hotel died last evening shortly after 5 o'clock. He was taken down with typhoid pneumonia, in its worst form, last Thursday, one week ago. From the start, the disease seemed to have taken a hold of his constitution that neither medical skill nor careful nursing could break, and he grew rapidly worse, slightly reviving at intervals, until the slender thread of life parted. Mr. Perkins was a native of California, and would have been 35 years of age the coming December. His parents came to this coast as early as 1847 or 1848, and Frank was born shortly after they landed. He came to this State when quite young, living in Gold Hill, Virginia and Carson, where he is well known. He was married to Miss Jennie Kyle, in Virginia, on April 27, 1877. Mr. Perkins came to Reno, with his wife, about six years ago, and opened a saloon in company with Al. White, in the old Cookes building, where they conducted a profitable business for about two years, when they bought the old Rough Elliott corner, at the intersection of Commercial Row and Center streets, and immediately went to work to put up the building now known as the Palace Hotel, which place they opened about three years ago, and have made the Palace one of the most popular hotels in the city. Mr. White, his business partner, left the morning Frank was taken sick to pay a visit to friends and relatives in Kentucky, a privilege he has not enjoyed for over 33 years. The firm have been live, stirring men, assisting in every way possible everything tending to improve the town in a business way. Frank had taken a five years' lease of the race track property, and was making of it quite a stock ranch. He had hosts of friends throughout the State, and was well liked by his business and social associates wherever he was known. He leaves a wife in Reno, and a father, sister and two brothers in California to mourn his loss. He was conscious until shortly before his death, and conversed with friends and relatives until a few minutes before he passed away. He was a member and officer of the Reno Fire Department, a member of the Reno Guard; also a member of Truckee Lodge No. 14, I. O. O. F., by which society he will be buried from the Episcopal church to-morrow (Friday) at 2 o'clock P. M.

Maps of a Departed Race.

The *Enterprise*, speaking of the marks on the rocks at Verdi, says: Up near the Rubicon Springs are similar tracings. These also have a hole for a starting point. In Switzerland and several other countries in Europe stones similarly marked were often met with, and for ages puzzled the antiquaries. Within a few years, however, the discovery has been made that these rude carvings on the rocks were simply maps of certain districts of country traced by a prehistoric race. When the scientists came to examine the stones by this new light, they found that they contained very fair representations of the lakes, streams and mountains of the neighborhood. It is probable that the stones near Verdi and up toward the head of the American river are merely rude maps of the country. The holes may represent Lake Tahoe and Pyramid Lake, and the lines the Truckee river, some of the large canyons and the principal valleys and mountain ridges.

List of Grand Jurors.

The following is a list of the Grand Jurors for the present term of the District Court in Washoe county: William McPhearson, John Lee, J. K. Everett, W. O. H. Martin, Peter Gilson, A. C. Neale, H. L. Caughlin, Granville Dodge, John Wilson and Isaac Frederick. The Grand Jury will meet on Wednesday, the 12th inst.

Immoral Literature.

John Dennis, in the Tuscarora *Times-Review*, says: The dose of Kansan that the funny newspaper men are talking about Matt Canavan getting, don't appear to be Werrin the old man much. We received a letter from him the other day, and it was worded as cheerfully as one of Governor Adams' veto messages.

"Freedman, Spare That Tree."

Either the Government or the States of Nevada and California, the Walker Lake *Bulletin* thinks, and subscribes earnestly to its opinion, should purchase the land around Tahoe and prevent the removal of the forests, without which it will not be, as it is now, the most attractive spot in the United States.

Selling Below Cost.

A DESPERADO KILLED.

A Negro Rough Got His Stomach Full.

A dispatch from Dagget, A. T. says: The following advices have been received from the Needles: Last night a gang of roughs raided the Railroad Hotel at this place, headed by two desperadoes named Lubeck, and a negro named John Thurman. After shooting around recklessly for some time, and making several pistol marks, the negro was shot in the abdomen by some outsider not known. The negro will die. He is in great pain, and mortifying. The town has been run by this gang for weeks. We have no authorities here, not even a Deputy Sheriff, and a reign of terror prevails whenever these roughs commence a spree. Whisky is sold to the Indians, and they add a new terror to the acts of lawlessness now prevailing. Thieves and Thugs hold up and rob any one who stirs after dark. If the State or county will not protect us, the citizens will organize and rid the town of this gang.

Genuine Charity.

An unfortunate man, whom the city authorities of Ogden permitted to lie all one afternoon on the public streets in an almost dying condition, refusing him admittance to the public hospital, was taken in charge and cared for by the Sisters of Charity of that place. The Tuscarora *Times-Review* says that such acts of charity are proof of true religion, no matter under what denominational name they may be performed.

Cattle in Chicago.

The *Drovers' Journal* gives these figures of the Chicago market:

Receipts this week, 67,737 hogs, 38,632 cattle, 12,300 sheep, against 59,890 hogs, 38,937 cattle, 6,194 sheep last week. Receipts of cattle for the month of August were the largest on record, 184,678 head.

A Cure for Neuralgia.

District Court.

Recent arrests of evil doers determined Judge Boardman to call a Grand Jury, which was done to-day.

A NEAT BOOK.

How to Get It and What Its Contents Are

The Royal Baking Powder Company has issued "The Royal Baker and Pastry Cook," which contains over 700 receipts pertaining to every branch of the culinary department, including baking, roasting, preserving, soups, cakes, jellies, pastry, and all kinds of sweetmeats, including receipts for the most delicious candies, cordials, beverages, and all other necessary knowledge for the chef de cuisine of the most exacting epicure, as well as for the more modest housewife, who desires to prepare for her lord and master a repast that shall be both wholesome and economical. With each receipt is given full and explicit directions for putting together, manipulating, shaping, baking, and kind of utensil to be used, so that a novice can go through the operation with success; while a special and important feature is made of the mode of preparing all kinds of food and delicacies for the sick. The book has been prepared under the direction of Prof. Rudmani, late chef of the New York Cooking School, and is the most valuable upon the recent editions of the subject of cookery that has come to our notice. It is gotten up in the highest style of the printer's art, on tinted paper, with elaborately illuminated covers, etc. Every can of the "Royal Baking Powder" contains an order for one of these valuable books.

Humboldt Items.

The *Silver State* of the 5th inst. says:

A special train, consisting of 23 cars of beef cattle, passed west last night, bound for San Francisco.

Ducks, geese and other water fowl are said to be very numerous at the sink of the Humboldt. As the game law has expired, hunters down at the Meadows shoot them by dozens.

The Humboldt valley was visited by a thunder-storm about 10:30 o'clock last night. It was followed by a heavy shower, which lasted half an hour or more. This was the heaviest, and, in fact, the only rain that has fallen here for three months. We have had slight sprinkling showers two or three times during the Summer, but at no previous time did there enough water fall to lay the dust.

Meeting Notice.

There will be a special meeting of Truckee Lodge No. 14, I. O. O. F. this evening, Sept 6th., at 7:30, sharp, to make arrangements for the funeral of our late brother Frank Perkins. Members of Reno Lodge, and transient brothers are cordially invited.

J. L. McFarlin has just fixed up a quarts wagon for use at A. Lindley & Co.'s mines at White Plains, that reminds one of early days. The tires on the hind wheels weigh 545 pounds each. They are six inches wide by one and one-fourth inches thick. The buggy was sent to the mine this morning.

Glendale Socials.

Weekly socials have become quite fashionable on the meadows of late. The good people manage to get together on every week and enjoy themselves. The next party takes place Friday evening at Glendale Hall. A great many intend going down from here, and a good time is sure to be the result.

Stopped Up.

Jack Hutchinson came in last night on the V. & T. engine Columbia, No. 17, as proud as a peacock. She has just been turned out of the shops, where she underwent a thorough "round-house rubbing up," and looks like a new locomotive.

RANCH FOR SALE.

A RARE CHANCE

—FOR A—

LARGE INVESTMENT.

One Hundred and Six Thousand Acres.

THE WELL-KNOWN AND VALUABLE

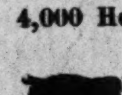

CLOVER VALLEY RANCH

Located in

Humboldt County, Nevada,

FOR SALE!

4,000 Head of Graded Cattle.

84 Head American Horses, including 50 Fine American Brood Mares 6,000 Acres Fine Meadow Land, Capable of Producing

5,000 TONS of HAY per ANNUM

240 ACRES IN ALFALFA, WELL IRrigated, producing five tons per Acre. 28,000 acres under fence.

MOWERS, REAPERS, FARMING IMPLEMENTS.

With all the appliances of a stock and grain farm to be included in the sale.

The Whole Ranch Comprising One Hundred and Six Thousand Acres.

CONTROLLING TWO HUNDRED AND FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR, as it is sometimes known, "The Iron Point Stock and Grain Ranch," Nevada, embracing one hundred and six thousand acres of land, is now offered for sale upon terms which represent a liberal concession to the purchaser, and offers high inducements in the way of a safe, permanent and profitable investment.

With this ranch will be sold four thousand head of stock cattle, now in splendid condition, embracing thoroughbred Durham bulls, purchased at a cost of six hundred dollars each. The entire herd is composed of grades produced by crossing the best American cows with the very best thoroughbred Durham bulls ever imported to this country. There are no inferior animals in the herd; no Spanish cattle or crosses from Spanish cattle. These ranches embrace six thousand acres of meadow land, which will produce about five thousand tons of hay per annum. There are two hundred and forty acres of fine alfalfa under irrigation, capable of producing twelve hundred and fifty tons of hay per annum. Twenty-eight thousand acres of this ranch is now under fence, redwood posts set sixteen feet apart, with four barbed wires, nearly new. Buildings attached to the ranch consist of one good one story and a half house, with four rooms, a stone cellar, and stone dairy house, well built. Horse barn forty by one hundred feet, with stalls for thirty horses. There is a splendid creek of living water running through the ranch; also an excellent well of water with two or three springs. Inside the inclosure there are two springs from which issue about twenty-five hundred inches of water, sufficient to irrigate twenty-five hundred acres of land which lie below them, and which may be subjected to irrigation at but little cost. Included in this sale there are two thousand acres of fine agricultural and meadow land, about seven miles northeast of the ranch buildings, upon which there are one hundred and twenty acres in alfalfa finely growing. This is a fine grain ranch, and will produce forty to fifty bushels of barley per acre per annum. There is a good orchard in bearing, and a live stream of water affording abundance of trout. About four hundred acres of this small ranch is under fence. The vendors of these ranches own and control the water rights indispensable to the use of two hundred and fifty thousand acres of land for grazing. There is sufficient water to irrigate twenty-four thousand acres in the lower ranch, and one thousand in the upper, making a total of thirty-four hundred acres.

The sale will include eighty-four head of good American horses, fifty of which are large fine brood mares, the remainder being saddle horses, well trained for herding cattle, and well broken work horses; also, there will be included in this sale [illegible] headers, eight mowing machines, [illegible] and all farming implements necessary to run this ranch.

Six years ago this ranch maintained throughout the year about forty thousand head of cattle. The range was injured by being overstocked, and the stock was sold, the owner of this ranch selling twelve thousand head. After a rest of six years the range was recuperated and is now as good as when in its primitive condition. The four thousand head of cattle now offered for sale are the progeny of well-selected cows from the best dairy herds in California and Nevada. They have increased to their present numbers very rapidly. Eight hundred calves will be produced in [illegible] and estimating upon the basis of the past experience [illegible] the band of 18[illegible] will exceed that number by one-half. The range is capable of supporting, without being overstocked, twenty-five thousand head, and the present herd may be increased to that number without seeking other range than that now proposed to be sold.

The Clover Valley ranges embrace—Township 36 north, ranges [illegible], [illegible] east; [illegible] 37 north, ranges [illegible], [illegible] east; township [illegible] north, ranges 43, [illegible] east; township [illegible] north, range 43 east—Mount Diablo meridian.

Title [illegible] patents from the United States will be given to one hundred and six thousand acres of land, commanding about one hundred fifty thousand and additional acres, to which the ownership of the land now offered for sale is a perfect key. The present value of the property is estimated to be worth four hundred and twenty-eight thousand dollars. The whole is offered for three hundred thousand dollars, of which one hundred and seventy-five thousand dollars must be paid in cash, one hundred and twenty-five thousand dollars in five years. Deferred payments to bear seven per cent interest per annum.

The cattle and horses will be sold by actual count. If the herd fall short of four thousand head of cattle, or eighty-four head of horses, a pro rata amount for the shortage will be deducted from the total purchase price.

Reference is had to ALVARO EVANS, capitalist, of Reno, and R. L. FULTON, RENO GAZETTE, Reno, for verification of there presentation set forth above. Inspection of the stock, lands and other property is solicited.

GENERAL NOTES.

The German Emperor has presented two new bells to the famous Louise Church in Charlottenburg, which are to be rung for the first time on the anniversary of Sedan. The Empress has ordered one of them engraved with a relief potrait of the late Queen Louise of Prussia, with the motto, "As the Lord willed it, so it was done." The other bears a relief potrait of the Emperor, with the motto (suggested by him), "In faith there is charity and hope".

A son of Edward Pierrepont stated Monday that the Chicago Tribune, in referring to a scheme for acquiring British Columbia, had penetrated the most important State secret which had been opened since the rebellion. He admitted practically that his trip to Alaska was in reference to this very thing. As an ex-Minister to the Court of St. James he is in a position to know whereof he speaks. He says in establishing the boundary line with British Columbia a tremendous error was committed. At present it is impossible to get into Alaska where all our fisheries and mining industries are without going 100 miles through British waters. The only other route is 1,000 miles around through the stormy Pacific ocean. He remarks that it is now a State question with both England and America whether the United States shall acquire British Columbia by conquest or Great Britain seize Alaska.

He was entertained by the Governor of Vancouver Island and the Chief Justice of that Island was present. He remarked to the visitors that the United States had no business in Alaska, since it was only accessible through British waters. The British secured the sea coast as far up as the middle of Mt. St. Elias, and there a line was drawn due north. Mr. Pierrepont says it is not a question of the purchase of British Columbia, since Great Britain is too dignified to sell its possessions, but it is a matter of conquest. He refers to the fact that England is watching the Isthmian canal project, ready to snatch the Pacific coast fraud. He says war is inevitable, because our interests are identical, and the moment the United States interferes with Great Britain's carrying our products to Europe there will be trouble. A great navy is an absolute necessity to the country. The war is not a matter of the near future, but it will be desirable to the people of this country as soon as they are prepared. He says that England is astonished at the vast industries developing in Alaska. That Territory cost the United States $7,200,000 and the royalty from the seal industries alone is 6 per cent. on the investment. The fisheries there are equal to those of all the rest of the world combined, and this produce going through British waters excites great jealousy.

German philosophers have been much exercised lately by the hideous statistics relating to suicide in their country. The mania for self-murder is manifested to a terrible extent in Berlin, and a very large number of those who fall victims to it belong to what are called the high classes. The London Graphic remarks: "Perhaps the facts cannot be satisfactorily explained; but it is impossible not to associate them to some extent with the decay of religious belief in Germany. It would be absurd, of course, that there is any necessary connection between skepticism and suicide; but there are certainly multitudes of men who, when they suddenly throw off old restraints, are tempted to plunge into a kind of life that may easily lead to disaster. For many thousands of Germans gambling seems to have an irresistible fascination; and gambling, both at the Bourse and at the card-table is understood to have been the direct cause of some of the most recent instances of suicide in the German capital. Probably poverty also accounts for a considerable number of cases. After the Franco-German war it was hoped that Germany would soon become as rich as she was powerful; but these anticipations have not been realized. The vast military system of the country crushes its industrial energies, and the struggle for existence in the great cities has become, to the mass of the people, almost intolerable. Many unfortunate men and women seem to kill themselves for no other reason than that they are tired of a conflict which they have to carry on without the consolations that sustained less materialistic generations. The subject is a very complicated and painful one, and we do not wonder that it causes much anxiety to serious and patriotic Germans."

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including **Constipation, Indigestion, Dyspepsia, Headache, Dysentery,** and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Sufferer from Headache writes:

"AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physic I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers.

W. L. PAGE, of W. L. Page & Bro."
Franklin St., Richmond, Va., June 3, 1882.

"I have used AYER'S PILLS in numberless instances as recommended by you, and have never known them to fail to accomplish the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine. FOR DYSPEPSIA they are invaluable.

J. T. HAYES."

Mexia, Texas, June 17, 1882.

The REV. FRANCIS B. HARLOWE, writing from *Atlanta, Ga.*, says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the costive habit, and have vastly improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.
